

The Cliff Dive

Our **essential questions** to guide our learning this week are:

Why do we read information books?

Why is it important to add numbers?

Our **"I Can" statements** to guide our learning for this week are:

I can use sounds to read and write words!

I can ask and answer questions to learn more about what I read!

I can add using objects, pictures, and drama!

Our Unit

We are working on our next unit of inquiry by exploring the great outdoors and we'll see where it takes us! We are exploring information and storybooks about animals, the weather, and seasons as we continue to use our reading superpowers! This week we will figure out some "I wonders" to work on during our inquiry!

This week in language arts we are continuing to learn about the outdoors, weather and the seasons using information text. We'll also start learning about "All About" books!

Math

In math, we are working on simple addition using "adding to" situations! We'll review comparing groups, too!

Science, SS, and Tech

We will continue to explore the weather and seasons, especially how to observe it!

Social Awareness

Our **Top Investigator** will pause for this week to catch up after days off and weather delays! We'll start again next week!

Our V.I.P.
