

Firefighter II Skill 3.1

Create an Incident Report

(NFPA 1001, 6.2.1)

Directions

For this skills evaluation checklist, students will create an Incident Report. Students should follow any policies of your local Department for creating Incident Reports.

You must provide students with situations for the Incident Report. Possible situations could be:

Two-car collision – Multiple injuries, one person pinned inside the wreckage, extrication required, Single Company response with ambulance

Ground-cover fire – Multi-unit response, structures threatened

Odor of smoke – Investigate, commercial

Medical response – Victim unresponsive, possible heart attack, Single Company response with ambulance assigned
